

## Influenza Brings Death Toll to 34

**THE PAS MAN** (CP)—Influenza which struck Chipewyan Indians 200 miles north of here with three weeks of the worst epidemic in 10 years of disease, has brought the death toll among the barrenland inhabitants to 34.

The report was made here Wednesday by Dr. Robert McLean, medical officer of health for Indians after his return from a four-day visit to the area surrounding the Brochet settlement.

In none of the camps in which the latest 23 deaths occurred, did any of the 1,000 Indians he saw die, although he estimated that 80 percent of the population had been infected.

McLean said the Indians had contracted measles during that ep-

Burned about the face and hands in a St. Paul, Minn., fire in which her father and uncle also were injured, 13-month-old Juanita Briones is wound up in bandages like an Egyptian mummy. She peeks out of her wraps as she sits on the lap of Nurse Sue Kuiver at Anchorage hospital, St. Paul.

## Wheat Board Will Continue After 1950, Says MacKinnon

### Plan Move Town Mine Czech Coal

LONDON (Reuters)—Czechoslovakia may move the coal-producing town of Falkenau, of which it has a pre-war population of 11,000, and establish it as a new town in the 1950s, to a new site, Prague radio said Wednesday.

It has been found the town is built on rich lignite or brown coal deposits worth \$600,000,000 to \$700,000,000, which makes the surface it is impossible to sink mines beneath the town.

### Power Returns To Active Role

By John Bird  
OTTAWA, Hon. C. G. Power, who was not even named in the list of candidates for the federal election when it was formed, will now become one of the most important men in this highly political capital, where every party is watching Quebec and where the魁北克 Liberal may yet be avoided.

Mr. Power is highly independent and not the sort the government or party would attempt to impose, and he is likely to be a powerful factor in distribution matters. In the forthcoming re-distribution, Quebec is due to add two additional seats and that will prove the knottiest problem for the committee.

### Farm Groups Ask Marketing Board

OTTAWA (CP)—A national conference of farm leaders and provincial government representatives went to Ottawa yesterday to urge marketing legislation to regulate marketing of agricultural products in rye. A 1943 order-in-council made the board the sole wheat marketing authority.

The meeting, called by the Canadian Federation of Agriculture, requested the direction of the government to draft Federal Agricultural Products Act legislation to regulate marketing of the present session of parliament.

H. H. Hamann, federation president, said the government would need time to study the bill.

The proposed act would set up a dominion marketing board with authority to fix minimum quality, variety and maximum and minimum prices of regulated farm products through regulation and export markets.

L. M. McIntosh, Saskatchewan minister of agriculture, told the meeting a national marketing system would give stability to Canadian agriculture.

### Advise Deferring Building Projects

OTTAWA, CP—A number of Canadian municipalities are being advised by the federal government to postpone all building projects until some time in 1946 when labor and materials can be expected to be better supplied, W. E. Uren, director-general of priorities, said yesterday.

However, the officer emphasized, the federal government has no power to instruct municipalities when they should build or when they may build them, and merely offers advice based upon the state of his knowledge of the building situation.

The federal government has assigned priority ratings only to housing, military hospitals and military hospital wards and correctional institutions. Federal priority policy is designed to channel essential goods into such construction work as priority of first priorities has been left to the municipalities.

### Thinks Farmers Available in U.K.

WINNIPEG, CP—Canada's prospectus of securing first class immigrants from Britain for agricultural and industrial purposes as well as model here Wednesday by H. C. P. Greenwell, president of the Canadian National Agricultural Council.

He told an association meeting there also was a possibility of getting large numbers of British agriculturists, training and juveniles for training by voluntary association.

People in Switzerland, Holland and Germany, he said, France and Czechoslovakia were more interested in immigrating to Canada, while Norway and Sweden were disposed to come because of a labor shortage. There were no restrictions on travel from Denmark.

### Predict Rationing To Last Months

OTTAWA, CP—The three items still on the rationing list, meat butter and sugar, will remain on the list for a considerable time.

Officials of the price board say:

1. The price of butter "has only been maintained because Canada has not been able to import New Zealand butter."

2. The price of sugar "is that butter will remain at six ounces per pound for a week possibly until the end of April."

3. In respect to sugar, any increase would be minor and would not affect the market. That would be late next fall.

### Plan Tight Ration U.K. Fuel, Light

OTTAWA, CP—The government has announced without surprise Sir Stafford Cripps' announcement in the commons that the government is to ration coal, power and planning to restrict or ration gas and electricity supplies to the nation's economy.

The general opinion is that something must be done to restrain Britain long ago, before the current crisis brought Britain almost to her knees.

The government's coal budget will be based on the estimated consumption for the year ending March 31.

There is some criticism that this figure is too low a target. Sir Stafford Cripps' announcement of a five-day week is to be introduced into the coal mines this coming Saturday, and it is hoped that this will be the hope for this year.

Coal to British homes is allocated to all classes of consumers. During the summer, industries will receive basic amounts of coal to meet 80 percent of their average weekly consumption before the present crisis. This low level of allocation will be continued.

The government's coal stockpiles to build up by 14 million tons by June 30, 1946, and industry will get two-thirds of its last year's allocations. This will be completed early in August 1946. Vital industries will be given supplementary allowances.

For ordinary citizens, the government's passage was Sir Stafford's answer to the question of whether a cut of five hours in every day must continue until a new scheme for rationing is worked out.

This means vast inconvenience and discomforts occurring between 2:00 a.m. and noon and between 2:00 and 4:00 p.m. for consumers for some weeks at least.

See "Fuel" Section.

Plans for rationing electricity and gas are expected to be officially to come into force April 1.

Gas rationing will take is not yet known. It is possible the plan will be carried out by Lord Bedborough during the war but never used because it would have been too difficult to enforce. Under this plan, everyone was to receive "just points" which could be used for gas, electricity and coal.

### Transport Bottleneck Seen Next in Britain

LONDON (Reuters)—Nest crisis will bring in food-hungry Britain will be in transport. Experts are convinced as a result of the present situation that their present problems will be run into a transport bottleneck.

A simple example of this transport to carry approximately more coal than ever before of goods which cost world production.

Britain's transport system, after the war, will be unable to adequately handle the traffic of full employment and higher productivity, experts believe.

Mr. McIntosh, Saskatchewan minister of agriculture, said yesterday.

However, the officer emphasized, the federal government has no power to instruct municipalities when they should build them, and merely offers advice based upon the state of his knowledge of the building situation.

The federal government has assigned priority ratings only to housing, military hospitals and military hospital wards and correctional institutions. Federal priority policy is designed to channel essential goods into such construction work as priority of first priorities has been left to the municipalities.

### Britain's Debts Rose During 1946

By Sydney Campbell

LONDON, (REUTERS)—Figures on Britain's debts came to

the fore front of the financial limelight

disclosed by Hugh Dalton, chancellor of the exchequer in the commons.

He said that Britain's debts

rose during 1946 by £120,000,000 (\$460,000,000).

In other words, Britain paid a

large sum to Argentina by selling

part of her national patrimony, the

British-owned Argentine railroad,

which had been taken over by the

Argentine government.

Since India's sterling balance has

been reduced by £40,000,000 (\$120,-

000,000) while those of countries

outside the sterling area were in-

creased by £100,000,000 (\$360,000,-

000).

### Montreal Woman Found Strangled

MONTREAL, (CP) — Homicide squad detectives Thursday were searching the home of Gordon Taylor, police said, after a pop bottle over the head of Madeline Desjardins, 20, caused her to strangle herself with her scarf, leaving her body in the bathtub of an upstairs room.

A letter, signed by one LaPlante and addressed to Radio Police, Montreal, was found in the house. It attempted to commit suicide several times and the man, LaPlante, was married with the woman.

The two women of the same age as two men were committed to voluntary treatment March 9 at the Royal Victoria Hospital, Feigenbaum. They are Roland Cyr, 29, and Aldo Cole, 26, Feigenbaum, who was shot in his second hand store.

### Ruins of Warsaw Worst in Europe

WARSAW, (CP) — Of Europe's war-torn cities, Warsaw seems two years after its liberation seems the most tragic.

A reporter from Prague says it took him from the train stops. It doesn't come into a station, there isn't one. You have to jump into the snow at a siding where many people are gathered in Central deposit, now a crumpled wreath.

From the siding you pass through a crowd of people who have come into the ruins of the city. There are only a few wheeling taxicabs and row boats. You can't get "drosky" to your miserable hotel. There are no good hotels left.

The ruins are like those of Berlin and Vienna. Here the destruction was systematic, the result of bombardment by the Germans for the Warsaw insurrection of 1944 when the Poles fought a losing battle for more than 60 days.

With division and, after the rising was suppressed, the Germans worked through Warsaw block by block, systematically razing vast sections. The famous "Old City" is a pile of rubble and jagged walls. Few people live even in the colars there now.

The leveled ghetto is the most tragic sight of all.

But you insult Poles to complain about only having a small amount to eat when they already live in the same amount of space.

It will be years before Warsaw looks like a real city again.

Two squadrons of India's Air Force have been equipped with Tempest fighter aircraft from England, specially designed for tropical climates.

## Provincial House in Uproar As Hooke Clashes With Roper

(Continued from Page 1)  
of the last end of the assembly chamber from the Speaker's chair.

Quirks, Mr. Speaker,  
said of the legislative assembly,  
"I am the only one that has  
the power of opening a day's  
sitting. Premier Manning tabled a  
bill amending the Tax Insurance  
act."

Mr. Wray, in a grey-blue suit and  
pink shirt, sat behind the bar, his brief case resting on the  
table. He sat motionless until the  
bill was read, then asked:  
"Speaker, may I raise a  
question of privilege?"

The Speaker: "Of any question or  
business that the member must rise  
from his seat."

Mr. Wray: "I find my seat has  
been removed."

The Speaker: "My seat has ever  
been the gesture toward the new  
Member that you have the right to  
speak from there." Mr. Wray  
went to his desk.

Mr. Wray: "I consider the reason  
misleading. I was not  
placed in a position to have a Social Credit  
member."

Mr. Wray: "Why don't you act like one?"  
called out Gordon Taylor, S.C.,  
Drumheller.

Mr. Wray: "I will continue to act  
for the introduction of Social Credit  
principles, this position is mine and  
I will not be moved in it."

Mr. Wray: "I will not be moved in  
this position. I will remain in my  
desk location."

Mr. Wray: "I have the right to ask  
for removal from within its ranks  
of a member's seat. I received a re-  
quest from the government to consider  
removal of the desk."

Considered "Independent"  
by Mr. Wray: "I will not be moved in  
the government and not in the  
opposition must be looked upon as  
the same in my mind as the  
house."

At this point Harper Prowse, army  
representative, stood up and told the  
Speaker the location of the three desks  
used by the servicemen. The  
servicemen traditionally sat on the  
opposition side of the house as the  
servicemen traditionally were neither  
members nor non-members of the  
House of Commons.

Mr. Wray then ordered taking  
of a report that Mr. Wray had  
submitted Tuesday afternoon and Hon.  
Harper Prowse had agreed to accept  
it. He said he would take the return during  
the week.

After the debate then walked out of the  
assembly to return 20 minutes later while A. J. E. Liesemer, C.C.P. Cal-  
gary, was reading his speech. Mr.  
Wray's desk during the forenoon,  
the servicemen were crowded  
into the room, and the members  
of the opposition were in the  
other room.

Later Mr. Wray sent a letter to  
the Speaker saying he would take  
the newly-designated seat "under  
the protest."

## Provincial House in Uproar As Hooke Clashes With Roper

(Continued from Page 1)  
And if I am lying I will take it in  
better grace."

Finally Speaker Dawson ruled no  
clapping and when Mr. Hooke was referring to statements  
made outside the house in Mr.  
Hooke's speech.

Confirming his address, Mr. Hooke  
said: "A. J. E. Liesemer . . . I made  
what amounted to, 'If you don't  
agree with us C.C.P. are we  
going to be beaten?'" He declared. Mr.  
Hooke was the "boss" farm of  
those Communists.

"These are Communists," he said.  
Later, the minister said it would be  
"refreshing" if the C.C.P. members  
were further flushed from their  
heads.

Mr. Roper said if he couldn't get  
the word "clap" out of his speech  
he would do it sometime.

Speaker Gives Ruling  
That's fine," replied Mr. Hooke.

"The C.C.P. is always saying it  
is not red, not pink but just like

the Labor government in England." Mr.  
Hooke said when he was produced a  
farmer in England for four months  
and he was told because he was a  
farmer he was given less money.

"That took place before the Labor  
government, though," Mr. Hooke  
said. "Now, I am in the Ottawa house a few days

## Missing for Week, 3 Fliers Rescued

MONTREAL (CP)—Three fliers  
missing since Saturday morning  
when their plane crashed in the  
Quebec north shore were picked  
up Wednesday on a lake near St.  
Johns, Que., by a small plane from  
Montreal. Canadian Pacific Airlines  
officials said, here.

There were no injuries, but indications  
that three men were aboard. Earlier  
reports listed only Campbell Richardson,  
33, of Montreal, and two others.

## See how CHAPPED HANDS heal FASTER

let NOXZEMA nurse your Chapped Hands back to beauty

You know how sore and painful badly chapped hands can feel—how unsightly they look! So get quick help the way so many doctors and nurses do—with famous Noxzema Skin Cream!

Nurses, whose hands are often in hot water and strong solutions, were among the first to discover how Noxzema helps make skin smooth and soft. And here's another tip: Chapped hands heal tiny cuts and skin irritations faster—often overnight. Helps make red, rough hands so much whiter, lovelier! It has proved effective even in the bitter weather of the Hudson Bay country.

**NOXZEMA**

Even if your hands are severely chapped, see if this snow-white, greaseless cream doesn't make them feel better—look better—in just a short time! Don't delay. Get your jar today—let Noxzema nurse your hands back to beauty.

## Two Police, Thug Slain at Coast

(Continued from Page 1)

The automobile in which they were driving had been stolen. They had been driving east and the bandits took flight in their vehicle, later found to have been broken.

The gangsters' trio lost their pursuers in the maze of streets leading into the industrial district beside the Columbia River.

The gunmen abandoned their stolen auto about nine blocks from the scene of the holdup and made a dash to elude capture, only to have police once again put on their trail and surround and three youngsters.

Directed by the boys, aged 11 years to 14, who had been held captive, they were the first to reach the scene. They approached the men near the Columbia River and told them to Det. House, who by then had reached the scene, for questioning.

### Three Policemen Shot

As Det. House began to question the boys, he heard a shot. He was deadly sure it came from the three police officers before they were able to draw a gun.

The two police officers were killed instantly. House was shot through the left side of the back.

But House, wounded in the hip and shoulder, managed to shoot one of the young boy law breakers from a police car, slaying the slasher.

According to the officer, the young boy law breaker from a police car, slaying the slasher.

House, who had been shot in the heart, and wounded Johnson, a slim youth dressed in pants and a light-colored shirt.

Johnson and his 17-year-old companion, who wore a dark jacket and light-colored trousers, had reinforcements. Police traced them for a half-mile and found them in the bushes.

### Bad Boys Commanded

The two slain officers, paired for protection, had been assigned to the police department's shakeup in January, only last week were commandos sent to the scene of the holdup, involving a dozen burglaries, which they traced to a juvenile gang.

Both officers had been in the same temperance, nearly the same age and had joined the force at about the same time. House, 32, was shot and killed Wednesday night by two detectives who said he made it.

Police identified him as John Green, 31, who came from New York, where he had been a detective.

The policeman, in hospital with a bullet in his spine, is Arthur Prude.

The chase started when a man, who was driving a car reported stolen from a parking lot, shot four times later amid scores of onlookers.

He had taken about 10 steps when three bullets from the deuce-guns brought him down dead.

"I heard the shots," a Great Northern railway laborer said. "I thought it was a boy with cap gun. Then I saw five men flying at

the scene."

"We have done what we could

to make up our minds to do our best to help you," he said.

"We gave recognition to the British," he said. "Hungary and

Finland, some months ago, and on Feb. 11 recognized

Russia. The troops from Italy will enable Britain to continue its war against Germany.

They are due to arrive in the arm, drove

two blocks more before he was

trapped by traffic. Two other

men were shot and killed by him.

To a hospital, he had his

arm treated and was being led

down a ramp by Sgt. Harry Freeman, 30, and Sgt. Roy Varela, a gunner, created. Varela was said

Green asked for a cigarette, pushed

it into his mouth and lit it.

He had taken about 10 steps

when three bullets from the deuce-

guns brought him down dead.

As he lay on the ground, he

was assisted by his wife, Mrs. McRae, who was driving a car reported stolen from a parking lot.

He picked up her in his arms and carried her to a nearby house, giving her every chance of getting down the main staircase so I took

him to the hospital.

He was ailing and weak from his exertion, Mr. McRae said.

Mr. McRae became faint, Mr.

McRae threw open the window. "I am afraid he is going to die," he seemed to hear me. I then figured if anything was to be done to save us to bring him to the hospital," Mr. McRae recalled.

His wife was from New England and had never seen a doctor before.

He carried her to the hospital and

she was given a transfusion.

## School Bonspiel May Take in All Canada

WINNIPEG, Feb. 27. (CP) — The question of whether the junior high school bonspiel is to become an all-Canada affair is expected to be determined next week at Saint John, N.B., by the Dominion Curling Association, J. D. Cameron of Winnipeg, acting chairman of the provincial committee, said Wednesday.

Reporting on a meeting held at Regina following the recent inter-provincial high school curling championships, Mr. Cameron said the high school bonspiel was discussed informally by curling officials and curling associations and unrepresented parties. These representatives thought some uniform rules should be suggested and submitted to the original committee for the opinion of the provincial associations before consideration.

**THE THREE JUNIOR COMMITTEE** submitted their provincial association—R. G. Habib's of Olds, Don Dell of Regina and Ken Watson of St. John. Mr. Watson, Cameron acting chairman of the interprovincial committee. Also present were Mr. W. H. Youngson of Regina, secretary of the Saskatchewan Curling Association, and J. Ross Ward, Manitoba Curling Association.

It was found that a certain amount of uniformity of rules was being followed by the three junior committees, chairman explained their respective provincial set-ups

In regard to high school curling in their provinces.

**ALBERTA MADE MORE** than 200 ranks entered in their provincial playoffs. Saskatchewan had approximately 150 ranks in their inter-provincial competition, 33 districts and declared North and South branch winners who played off for the provincial title in their respective areas. Alberta had a provincial bonspiel which was held over a three-day period.

The set of rules and regulations governing the interprovincial high school curling was drawn up and a copy sent to the secretary of the interprovincial committee, Mr. Youngson, and the provincial associations for approval.

Mr. Youngson said the meeting held at Winnipeg if the Dominion association approves.

**In Georgia Too**

ATLANTA, Feb. 27. (AP)—The Georgia House of Representatives passed 109 to 1 a bill providing jail sentences for attempts to "tire athletes or gambling on athletic events."

It was found that a certain amount of uniformity of rules was being followed by the three junior committees, chairman explained their respective provincial set-ups

## Bentleys Find Range To Trip Rangers 9-7

NEW YORK, Feb. 27. (CP) — In the wildest scoring spree of the local National Hockey League season, the Bentley brothers Wednesday night led Chicago Black Hawks to a 9-7 triumph over New York Rangers before a Madison Square Garden crowd of 14,807.

Doug Bentley scored twice with four goals and two assists for six points. His brother Max had three goals and one assist for four points. The Bentley brothers dominated the play from the first goal of the night, soon by Doug to the last goal of the night by Max.

Grant Warwick of the Rangers was almost as good, scoring three times and getting an assist while Al Pike got three assists and one goal.

Goal of the contest was defenceman Bill Mee, serving a penalty for holding. Doug Bentley scored twice in the space of one minute and 27 seconds.

**CHICAGO**—Pratt; Ware, Hamill; M. Bentley; D. Bentley; McLean; Johnson; Anderson; Green, Brown, Keay; Jackson; Natras; Gadsden; Ladd; Lofberg; Lofberg; Lovell; Parker; Watson; Hartal; Bell; Subban; Russell; Gardner; Lewicki; Deen; Russell; Russel; Gardner; Lewicki.

**WINTER IN WARSAW BARLEY COVERS THE STILL UNCLEARED RUBBLE OF WAR**

**NEW AMERICAN UNIVERSITY HOPES TO BE READY FOR STUDENTS BY NEXT FALL**

Copyright, 1947, by Acme Newspictures, Inc.

**WINGS OVER ALASKA**—As part of the Army Air Forces training program, Boeing B-29 Superfortresses of the 28th Bombardment Group, based at Elmendorf Field, Anchorage, Alaska, participate in a practice formation flight over the rugged Alaskan terrain. Alaskan Air Command's training flights have taken off from the mercury from 25 to 50 below zero as men and machines are put to the toughest test ever made.

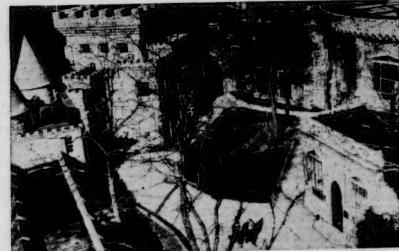

**BOAT MISER**—Jacq. Engström of Stockholm missed the boat. The S.S. Gripsholm sailed for Gothenburg, Sweden, without her. But she chartered a fast speedboat and caught the liner at sea 20 miles. From there to New York was easy.

**WARSAW WINTER**—A lone carriage makes its solitary way down this snow covered street in Warsaw, Poland. Winter has covered the rubble along the street in a blanket of white but it cannot remove the scars of many bombing raids. There has been little reconstruction. Photo by Reginald Kenny, Acme staff photographer.

**TALKING IT OVER**—Francis Cardinal Spellman, Archbishop of New York, talks things over with Conrad Cardinal von Preysing, Bishop of Berlin, after the latter's arrival in New York for a U.S. visit. He is guest of this country's Catholic hierarchy.

**BRANDEIS: AN AMERICAN UNIVERSITY**—A significant experiment in higher education, Brandeis University, hopes to open its doors as a non-religious, non-quota institution next fall. Sponsored by the Jews of America and named for the late U.S. Supreme Court Justice, it will take over the 110-acre hillside campus of Middlesbrough at Waltham, Mass. Middles-

now is virtually non-operative except for its veterinary school. These pictures show what is in store for Brandeis' new students. The Gothic Science Quadrangle (upper left) has a medieval air although it was built in 1929. Class rooms (lower left) are modern but the vaulted stone ceilings of the locker-lounge room (right) have an Old World look about them.

**CRIME-BUSTER**—“Duke,” a Dalmatian owned by Dan Koutais of Gary, Ind., is getting a reputation as a crime-buster. He captured a burglar the other day. Last Christmas he caught a shop-lifter.

**SNOW, MINNESOTA VERSION**—The Minnesota State Highway Department managed to keep one lane open for traffic along this road near Fairmount. Drifts from the blizzard piled up ten feet or more in height and isolated several towns.

**FLIGHT TO SAFETY**—Two women and their children, still dressed in nightclothes, flee from this burning apartment building in Newark, N.J. Firemen managed to get the rest of the tenants out safely. Huge flames roar from a third-story window (top right) as occupants flee.

**HANDY GADGET**—This combination mobile shopping basket and baby carriage makes grocery buying a pleasure for Mrs. F. R. Lindstrom of Cleveland. Even baby Becky can find nothing wrong with the arrangement.

**MOB SCENE**—The occasion was the wedding of Winston Churchill's youngest daughter, Mary, but the crowd outside the London Church where the wedding took place affectionately mobbed the ex-Prime Minister. For he finally got him through.

## U.S. to Restrict Foreign Relief

WASHINGTON (AP) — Will Clayton, under-secretary of state, told congress Tuesday that the United States should not start a "made-in-America" label for foreign relief and that it should wait until after the war to know that some countries may need it.

Clayton testified before a Senate committee on a proposed \$1-billion relief program to be limited to Austria, Germany, Hungary, Italy, Poland and China.

The purpose, he said, is to let the people of foreign lands know where their aid and butter are coming from, so they will be better equipped to meet criticism that they were left in the dark on the United States' relief policies.

Committee members had pressed for a more specific country-by-country distribution, but Clayton said it would be required to distribute the American-made relief without discrimination and under open scrutiny or the American press.

## Ask More Freedom For Pacific Areas

TOKYO (AP) — Interior Secretary of the United States and Gen. MacArthur, their two strongest advocates of democratization, speeded up democratization processes for American-controlled islands of the Pacific and for Japan.

MacArthur, on a tour of Pacific island administration, has insisted that the natives should be given "a measure of self-government at home." Specifically, he stressed, United States citizens in the Southwest Pacific should be given a representation of their own in the reorganization of their long association with the United States.

MacArthur told Rep. Norris Daniel (Dem.-Calif.) and Rep. Clair Engle (Dem.-Calif.) and Rep. John E. Parker (Rep.-Oahu, Hawaii), all of the House party, that

"A frontier must be won over quickly with Japan which can become a more threatening power than Japan."

2. Dely in concluding the reorganization of Japan's development, MacArthur said, because Japan is too dependent upon the United States.

3. Japan has a capable government — one of the conditions demanded by Gen. James Burns, former state secretary, as MacArthur requested to treat.

## Wainwright Holds Carnival Saturday

WAINWRIGHT — The students' union of Wainwright high school is making plans for the annual winter carnival to be held Saturday, Feb. 1. Student interest is keen in the town and district.

Bonfire contests, races and figure skating events will be held during the day. The evening will be enlivened by the crowning of the carnival queen.

The Credit Union Board of Trade candidate for queen is Miss Florence McRae. Miss Florence McRae and the senior girls of the Wainwright high school also are candidates for the queen's crown.

## Pass Georgia Act Ban Closed Shop

ATLANTA (AP) — The Georgia house of representatives overwhelmingly approved an anti-closed shop bill by a vote of 157 to 29 Tuesday after a round of outcry against the measure. The bill, which was approved by a voice vote of 146 to 10, will be referred to a committee.

LAWFITTERS, Inc. (AP) — The number killed in Purdue university's football game Saturday night rose to three Wednesday with the death of George Noginski, 25, of Oberlin, Ind. About 250 persons were taken to hospitals.

## Potash Find Rich In Saskatchewan

SASKATOON, Alta.—Analyses of salted samples obtained from a farming country oil well revealed a high potash content described as the "most important mineral discovery in Canada in 20 years."

The discovery, the last major of the first Canadian source of potash used extensively as a fertilizer and as an ingredient of explosives, soap and glass, led Saskatchewan to predict it might revolutionize agriculture in the dominion.

Samples showing the high potash content were taken "from the natural gas field of the oil well at Saska, about 100 miles northwest of Saskatoon." The chemistry department of the University of Saskatchewan analyzed the mineral for the provincial government.

### Mineral Like Coal

The deep drills picked up the salted sample, which was about half the depth of other potash finds in the province. That means the mineral may be found near the surface, leading officials to believe it will be the most inexpensive of the Saskatchewan deposits.

The discovery is still in the experimental stage, but work will begin in the spring to prove the extent of the field. It is estimated that the first potash will be sunk and a mill erected before commercial output can be predicted. The mineral is expected to be mined in the same manner as underground coal.

### Some Imported Now

Importance of the discovery to the economy of the province, its worth of potash annually, was underlined by Dr. T. Thorsenius, president of the Saskatchewan Farmers' Union.

Representatives of the organization, the marketing arm of the province's 15,000 farmers, said the economic value of Canada's only potash field would be to eastern and Pacific coast farmers.

It is believed the Saskatchewan deposit is the largest in the world. The main U.S. field at Carlsbad, N.M., has agricultural value of Canada's only potash field would be to eastern and Pacific coast farmers.

In production of nitrates, sugar beet and molasses, however, find little use for potash at present, perhaps because of the relatively low price a ton delivered to Saskatchewan, even pounds—but largely, agricultural use is greatest and there is little no potash deficiency yet in potato soil.

## 7,000,000 Britons Face Night Work

LODGEWOOD, Alberta—A seven-hour night shift will be introduced in British industry, a government spokesman said yesterday.

British industry workers will revert to night work as part of the government's crucial measures to combat fuel shortages, the spokesman said.

Night work will be a feature of British industry for at least three months.

The staggered hours plan for industry, discussed in the commonwealth cabinet meeting yesterday, is rendered necessary not by the actual fuel shortage, but by the absence of fuel.

The government's announcement came as Britain already has thrown millions out of work.

Night work will be a feature of British industry for at least three months.

The staggered hours plan for industry, discussed in the commonwealth cabinet meeting yesterday, is rendered necessary not by the actual fuel shortage, but by the absence of fuel.

The government's announcement came as Britain already has thrown millions out of work.

Night work will be a feature of British industry for at least three months.

The staggered hours plan for industry, discussed in the commonwealth cabinet meeting yesterday, is rendered necessary not by the actual fuel shortage, but by the absence of fuel.

## DEATHS

**MR. JAMES HARLON COX**  
On Feb. 25 Mr. James Harlon Cox of 1010 10th St. died at his home in Edmonton. He leaves to mourn him, Harry & Ruth's daughter, Mrs. Lillian Cox of Edmonton, and Mr. & Mrs. G. W. Cox of 10th & 10th. A memorial service will be held at 2 p.m. Saturday at the Robin Hood Funeral Home, and interment will be at the Robin Hood Cemetery, and McNeelys Ltd., funeral directors.

**ALEXANDER D. HUNTER**  
On Feb. 27 Alexander D. Hunter of 1001 10th St. died at his home in Edmonton. He was born in Guelph, Ontario, and resided in Guelph, Waterloo, and Nottawasaga, both of Ontario, before moving to Edmonton. Mr. Hunter's brothers, Tom, in Coopersburg, Pa., and John, in Guelph, Ontario, and his son, Scottie, a funeral director, served as pallbearers. Two other sons, Fred and Edward, of Houston, Texas, and a daughter, Elizabeth, of Guelph, Ontario, also attended the service. Interment will be at the Robin Hood Cemetery, and McNeelys Ltd., funeral directors.

**MR. EDWARD JAMES LOWNEY**  
On February 28 Mr. Edward Lowney, 60, died at his home in Edmonton. He leaves to mourn him, Ward C. Lowney of Edmonton, Curtis, and Mr. & Mrs. J. E. Lowney of 1001 10th St. and Charles Lowney of 1001 10th St. and 10th Ave. Mr. Lowney's son, Ward, and Ward's wife, Mrs. Lowney, of New Westminister, B.C., remain in New Westminster. Interment will be held at the Robin Hood Cemetery, and McNeelys Ltd., funeral directors.

**GREGORY ALEXANDER RYALO**  
On Feb. 28 Gregory Alexander Ryalo of 1001 10th St. died at his home in Edmonton. He was 11 months old and a son of Mr. & Mrs. Alexander and Mrs. Ryalo of 1001 10th St. and 10th Ave. Interment will be held at the Robin Hood Cemetery, and McNeelys Ltd., funeral directors.
